PART 1

Important Topics

Important Topics

Unit 1

Nabq National Park

Nabq is a very big national park in South Sinai. Along the coast, there is a mangrove forest. Mangrove forests are so important for the marine ecosystem. Trees grow out of the sea there. They have amazing roots. The roots grow high out of the water. Mangrove trees protect the non-living things and the living things in the marine ecosystem. They help us with global warming.

Amazon rainforest

The Amazon rainforest is a very important ecosystem. All the living things in the rainforest need each other. Birds and animals help the trees as they take seeds from place to place in the forest to grow new trees. Animals eat custard apple fruit to survive. So it's very important. It's important to protect our forests to help the environment.

Mangrove trees

Mangrove trees are very important for a lot of animals and birds. They're a safe home for hundreds of animals, birds and insects. There are many marine animals live among their roots. The trees' roots grow high out of the water. These roots help them get oxygen. Birds and animals eat their fruit to survive. Bees help to carry the pollen among the flowers to grow new plants. Mangrove trees are important for the environment.

Circulatory system

Our circulatory system has veins, arteries and our heart. Arteries move blood away from our heart. Veins carry blood to the heart. The blood carries the nutrients and oxygen that we need in our body. Our heart pumps blood all the time. It beats about 70 times a minute. It's important to keep our heart healthy. Keep moving, walking, running and riding bikes to help your heart.

How to be healthy

From : seif@gmail.com

To : ahmed@gmail.com

Subject : how to be healthy

Dear Ahmed,

How are you ? It's important to be healthy. You should eat healthy food like fruit and vegetables. Don't eat a lot of chocolate. It's not healthy. Doing sports is important to keep healthy. Do exercise because it's good for your heart. Relax and have good sleep at night. Try to listen to music to relax. It's important for our hearts to have healthy style life.

Yours,

Seif

Mangrove forests

Mangrove forests are very important for the marine ecosystem. Mangrove trees grow in salt water. They grow high out of the water. The roots of mangrove trees help them get oxygen. Mangrove thick leaves stop the plants losing water when it is very hot. Mangrove trees help with global warming. The forests are

a safe home for many animals. So the mangrove trees help the environment in many ways.

An ecosystem

An ecosystem is all animals and plants in an area. It can be as small as a pond or as big as a forest. In an ecosystem, living things interact with non-living things. In an ecosystem, the different species need each other to survive. The different species make a community.

Unit 2

The Sahara Desert

The Sahara Desert is the largest hot desert in the world. It covers eleven countries. It's about nine millions square kilometers. Some of the sand dunes are very high. They can be about 180 meters high. The Sahara Desert is a very dry place. Some plants and animals live in Sahara Desert. People also have lived there for thousands of years, too.

Man-made wonders of Africa

People have made many incredible things in Africa. Some of the most important man-made wonders are in Egypt. The Pyramids of Giza, the Sphinx and the temples of Abu Simbel are man-made wonders in Egypt. People come from all over the world to learn about Egypt's history. Archaeologists think that Sahara in Africa wasn't dry because of the paintings show animals that live in water.

Storm-chasers

Storm-chasers are people who travel to places where a hurricane is forecast. Storm-chasers are interested in forms of extreme weather. They get close to the extreme weather event to study it. They have cameras to photograph these events. Floods, thunderstorms, and dust storms are examples of the extreme weather. Storm-chasers travel to many countries to be close to the extreme events. It's amazing!

The volcanoes of Java

The volcanoes of Java is on the pretty island of Java. Everything there is made of lava! There are more than thirty-nine volcanoes. When they erupt, there's ash and fire. Smoke fills the air. The lava and ash mix with mud flows. This makes soil good for growing food. Farmers can grow many kinds of crops there.

Rainbow Bridge

Rainbow Bridge is one of the largest natural arches in the world. It is 200 million years old. It's on Lake Powell in Utah, USA. It's made of red and brown sandstone. A river eroded a hole in the sandstone and has formed the arch. If you want to visit it, you have to take a boat, ride a horse or walk. It's interesting.

A balloon ride

I have got tickets for the Luxor hot air balloon festival. I'll go with my family. We'll see balloons in lots of colors. I'm very excited. I think about the festival. There's a hot air balloon pilot. It's a perfect weather today with no rain and a gentle wind. Soon, we're flying

over the city of Luxor. We see green fields and sandy deserts. There are palm trees, dunes and mountains. It's very amazing!

The Pinnacles

The Pinnacles are one of the most unusual geological formations in western Australia. They are a group of tall white rocks in the Nambung National Park. The Pinnacles are made of white limestone which the rain and wind had eroded into different shapes. The tallest columns are between three and five meters high. The best time to visit them is in the early morning or late afternoon.

The Ngorongoro Crater

The Ngorongoro Crater is in Tanzania. It's the largest volcanic crater in the world. It was formed when a volcano erupted millions of years ago. There are wetlands and forests inside the crater. You can see lots of different animals, birds and plants there.

Unit 3

Natural resources

Natural resources are raw materials. We can get natural resources from nature. Some natural resources like solar energy are renewable. We can get solar energy from the sun to make electricity. We also use natural resources to make things. We use wood to make tables. We use stone to build houses. Some natural resources are non-renewable like coal.

Gold in ancient Egypt

Ancient Egypt was very successful because it had good natural resources. Salt, flax and gold were very important natural resources in ancient Egypt. Pictures of life in ancient Egypt often show jewelry and beautiful objects made from gold. People in ancient Egypt found gold in rivers, then they made mines to get more out of the ground.

Honey

Honey is very important for us. It was an important natural resource in ancient Egypt. People can use honey for many different things. Honey is a liquid. It's sticky, soft and smooth. We use honey to make food taste sweet.

A science experiment

From : tarek@yahoo.com

To : youssif@yahoo.com

Subject : a science experiment

Dear Youssif,

How are you ? I'd like to tell you about a science experiment. Yesterday, we did an experiment about different liquids in the science class. We had small jars with different liquids like honey, milk, water and maple syrup. We also had some tall glass jars and a plastic syringe. We poured the honey slowly in the glass jar, then we slowly poured the maple syrup. The syrup made a layer on top of the honey.

Yours,

Tarek

Wadi El Rayan Waterfalls

Last Friday, we went on a trip to the waterfalls at Wadi El Rayan. It was beautiful. There are two lakes there. There are a lot of birds living there. We learned that the water comes from an oasis in the desert. The sound of water falling is very loud.

Resources in ancient Egypt

Flax, salt, gold and copper were very important resources in ancient Egypt. People in ancient Egypt used flax to make linen for clothes, as well as strong ropes. Salt was also a very important resource. It was useful in medicine and agriculture. Copper was another important resource. People used it to make tools, cooking pots and knives.

A trip to Wadi El Rayan Waterfalls

I went on a trip to the waterfalls at Wadi EL Rayan last summer. I went there with my friends by bus. We took many wonderful photos. I had lunch there with my friends. We learned a lot about Wadi El Rayan Waterfalls. There are two lakes there; one at the top of the waterfalls and one at the bottom. There are a lot of different birds living there.

Unit 4

Riding a bike

Riding a bike is very interesting. We use force to get the bike to move by pushing the pedals. We also use force to stop the bike, by using the brakes. The brakes can slow down or stop the wheels. If you want to increase your speed, push the pedals more quickly.

How to make a dart

From : mona@yahoo.com

To : sally@yahoo.com

Subject : how to make a dart

Dear Sally,

How are you ? I want to tell you about how to make a dart. Take a piece of paper and fold it in half vertically. Crease it. Open the paper. Fold over the top two corners. Turn the paper over. Fold it in half and crease it. Fold down the wings and crease them. Then fold them down again and crease them. Your dart is ready to fly.

Yours,

Mona

Flying and gravity

Gravity is the pull force. It brings objects towards the Earth. Gravity keeps people from flying up into space. On Earth, gravity pushes our bones together. There is no gravity in space. Gravity usually pulls things to the ground.

Jobs in science

Astronauts, pilots and engineers are very important. The astronaut is always interested in stars and planets. It's very important to study other planets because this might help us solve some of Earth's problems. Being an engineer is really interesting. You need to understand science to do this job. Being a pilot is not an easy job, but it's amazing. Sometimes, the planes do amazing moves. The air resistance helps the planes to stay in the air.

A job you want to do

From : sayed@gmail.com

To : younis@gmail.com

Subject : a job I want to do

Dear Younis,

How are you ? I want to tell you about a job I want to do in the future. I'm really interested in space and I want to understand it better so I want to be a scientist. I need to study chemistry, math and physics in university to be a scientist. I like math but I think chemistry and physics are difficult.

See you soon !

Sayed

The first man to fly

Abbas Ibn Firnas was probably the first person to fly using wings so he became very famous. He was an important person. He invented many things. He invented water clocks.

A job you would like to do in the future

We must think about the future and get ready for it so I think about my future job. In the future, I would like to be a doctor. I'm interested in science. To be a doctor, I need to study medicine, chemistry and physics in university. I want to be a doctor to help people who are ill. Doctors work in many places like hospitals.

Your father's job

My father is an engineer. His job is really interesting. My father helps to build roads and bridges. He also helps make things such as skateboards. My father says that you need to understand science well, to be a good engineer.

PART 2

4 Sample Tests on Units

1 Listen and answer the questions.

1. Where can mangrove trees grow ?

.....

2. What do mangrove trees protect ?

.....

3. What do mangrove trees take from air ?

.....

4. What can bees make ?

.....

2 Read and complete the following text with the words from the list.

protect – ecosystem – sunlight – food – happy

Humans need sunlight. We can't make our own [1]..... but we get vitamin D from [2]..... This can [3]..... us from getting sick. Sunlight also makes a lot of people feel [4].....

3 Read the following text and answer the questions.

A rabbit was living in a forest. He was very afraid of a lion who ruled the forest. The lion was unkind and liked to annoy the other animals. One day, the lion decided to have some fun and chased the rabbit. The rabbit ran for his life and reached a cave. The rabbit saw a big hole in the cave and jumped into it. The lion followed him and also jumped into the hole. But the hole was a trap and the lion can't come out of it. The rabbit escaped and lived happily ever after.

A. Choose the correct answer from a, b, c or d.

1. The underlined pronoun "it" refers to the.....

- a. rabbit b. cave c. hole d. lion

2. The lion was a..... animal and liked to bully other animals.

- a. kind b. helpful c. cruel d. nice

B. Answer the following questions.

3. What did the lion decide to do ?

.....

4. What happened at the end ?

.....

4 The reader

A. Read and write T (True) or F (False).

1. Wadi El Gemal is in the Eastern Desert.
2. Jubari wasn't brave.

T	F
<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>

B. Complete the following sentences.

1. Jubari learned to away from predators.
2. Gazelles' favorite food is the desert

5 Choose the correct answer from a, b, c or d.

1. Fish, chicken, fruit are all healthy food.
 a. and b. but c. so d. because
2. I have a friend lives in Aswan.
 a. where b. who c. which d. when
3. Manal can't sleep well she has a headache.
 a. but b. because c. so d. why
4. Ali is the boy wants to be a vet.
 a. which b. when c. where d. who

6 Put the words in the correct order to make sentences.

1. veins – do – What – arteries – and – carry ?

.....

2. does – your – How – beat – often – heart ?

.....

7 Write a paragraph of FIFTY (50) words using the following guiding elements.

"An ecosystem"

Guiding elements :

- animals
- small
- plants
- living
- area
- non-living

.....

.....

.....

.....

.....

1 Listen and answer the questions.

1. Where is Rwanda ?

.....

2. What can visitors to Rwanda have on the Canopy Walk ?

.....

3. What is the highest part of the trees ?

.....

4. What can visitors see ?

.....

2 Read and complete the following text with the words from the list.

causes - study - hurricane - extreme - cameras

Storm-chasers are people who travel to places where there is extreme weather. The extreme weather might be a [1]..... or a thunderstorm. They get very close to the extreme weather to [2]..... it. They always have [3]..... to photograph these events like floods, thunderstorms and dust storms. The storm-chasers want to learn more about the [4]..... of the extreme weather.

3 Read the following text and answer the questions.

Last week, I read an interesting story about a young boy called Tommy. Tommy was a greedy boy who always wanted more than he needed. He never shared his toys, snacks, or books with anyone. He always wanted the biggest piece of cake, the most colorful balloon, or the shiniest coin. He thought that having more things would make him happy, but he was wrong. He soon realized that no one liked to play with him or be his friend. He felt lonely and sad. He wished he had been more generous and kind. He learned that greed is not good.

A. Choose the correct answer from a , b, c or d.

1. The underlined pronoun "him" refers to.....

- a. Tommy b. balloon c. lesson d. friend

2. The underlined adjective "generous" is the opposite of.....

- a. kind b. selfish c. angry d. lazy

B. Answer the following questions.

3. What is the moral of the story ?

.....

4. What was the result of Tommy's greed ?

.....

4 The reader

A. Read and write T [True] or F [False].

1. Gazelles' favorite food is the mangrove.
2. The turtle lives in Lake Nasser.

T	F
<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>

B. Complete the following sentences.

1. Jubari ran north, south, east and west to
2. Subira showed Jubari which plants to

5 Choose the correct answer from a, b, c or d.

1. We finished our homework yet.
 a. have b. has c. haven't d. hasn't
2. Last week, I on a camel.
 a. have ridden b. ride c. rides d. rode
3. Have you ever a new mobile ?
 a. buy b. buying c. buys d. bought
4. He has Aswan with his parents.
 a. visit b. visited c. visiting d. visits

6 Put the words in the correct order to make sentences.

1. continent - The - African - place - is - an amazing.

.....

2. plants - animals - and - Do - here - live ?

.....

7 Write a paragraph of FIFTY [50] words using the following guiding elements.

The Pinnacles

Guiding elements :

- geological • tall • National Park
- limestone • eroded

.....

.....

.....

.....

.....

.....

.....

1 Listen and answer the questions.

1. Is water solid or liquid ?

.....

2. What happens if we freeze water ?

.....

3. What happens when ice melts ?

.....

4. When does water turn into steam ?

.....

2 Read and complete the following dialogue with the words from the list.

coin – heavy – light – sinks – wonder

Mohamed : Hello, Tarek.

Tarek : Hi, Mohamed. Let's do a science experiment.

Mohamed : OK. We can put the solid objects into the liquids. I [1]
what will happen.

Tarek : We can put the [2] first.

Mohamed : Look! The coin [3] to the bottom. It goes through all the
liquids.

Tarek : This is a ping pong ball. This is very [4]

Mohamed : It doesn't go down to the honey. It floats on top of the water.

Tarek : You're right.

3 Read the following text and answer the questions.

The ancient Egyptians were very successful because they had good natural resources. Agriculture was a very important part of the economy of Egypt.

The Nile flooded every year and made the soil fertile. Farmers grew lots of different crops, such as cotton, and rice. Do any of you know what flax is ? This tall plant has blue flowers. The plant turns yellow after the flower die. Flax was important in ancient Egypt. People used it to make linen for clothes, as well as for strong rope.

A. Choose the correct answer from a, b, c or d.

- The main idea of the text is the in ancient Egypt.
 a. museum b. agriculture c. monuments d. learning English
- The underlined pronoun "it" refers to
 a. soil b. flax c. cotton d. crop

B. Answer the following questions.

- What is flax ?

- Why were the ancient Egyptians successful ? Mention one reason.

4 The reader

A. Read and write T (True) or F (False).

- | | | |
|---|--------------------------|--------------------------|
| 1. Jubari climbed the tallest mountain. | <input type="checkbox"/> | <input type="checkbox"/> |
| 2. Ras Hankorab beach is the home of Nubian ibex. | <input type="checkbox"/> | <input type="checkbox"/> |

B. Complete the following sentences.

- Gebel Elba is too for Jubari.
- Jubari's mother advised him not to near animals with sharp teeth.

5 Choose the correct answer from a, b, c or d.

- Samy said he play the guitar.
 a. can b. is c. could d. has
- If he ran quickly, he the race.
 a. will win b. won c. would win d. has won
- Omar said he reading comics.
 a. likes b. like c. liked d. liking
- If I had money, I travel around the world.
 a. will b. would c. can d. won't

6 Put the words in the correct order to make sentences.

- water - An oasis -with - a place - the desert - is - in.

- something - of - smell - the - Odor - is.

7 Write an email of FIFTY [50] words to your friend Youssif to tell him about a science experiment. Your name is Tarek. Your email address is tarek@yahoo.com. Your friend's email address is youssif@yahoo.com.

Guiding elements :

- glass jar
- honey
- maple syrup
- layer
- liquid

EL-MOASSER EL-MOASSER EL-MOASSER EL-MOASSER EL-MOASSER

1 Listen and answer the questions.

1. What are astronauts interested in ?

.....

2. What do astronauts study ?

.....

3. How many planets are there in the solar system ?

.....

4. Where do astronauts stay and live ?

.....

2 Read and complete the following text with the words from the list.

dart - crease - piece - top - dirt

There are some instructions to make a dart paper airplane. Take a [1]..... of paper and fold it in half vertically. Open the paper and fold over. Fold it in half and [2]..... it. Fold down one wing and crease the [3]..... of it. Then fold it down again. Repeat the last step with the other wing. Your [4]..... is ready to fly.

3 Read the following text and answer the questions.

I am Ahmed. I decided to be a pilot when I went to an airplane festival with my mom and dad. We saw lots of different planes flying in the sky and some of them did amazing moves. They flew in groups, sometimes with wings very close together. It looked amazing. There was also a museum, and I learned how air resistance helps the planes to stay in the air.

A. Choose the correct answer from a, b, c or d.

1. The underlined word "close" means

- a. under b. above c. far d. near

2. Ahmed saw planes.

- a. much b. any c. little d. a lot of

B. Answer the following questions.

3. What did Ahmed decide to be ?

.....

4. Where did Ahmed go ?

.....

4 The reader

A. Read and write T (True) or F (False).

1. Jubari drank a lot of salty water.
2. Wadi el Gemal is Wadi of the camels.

T	F
<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>

B. Complete the following sentences.

1. Jubari's mother showed him which to eat.
2. Ras Hankorab beach was a place for

5 Choose the correct answer from a, b, c or d.

1. She is a doctor, she ?

- a. is b. does c. isn't d. doesn't

2. He's finished his homework, he ?

- a. isn't b. hasn't c. doesn't d. didn't

3. He buy a car, won't he ?

- a. will b. had c. are d. do

4. Ali was at school, wasn't ?

- a. Ali b. he c. him d. her

6 Put the words in the correct order to make sentences.

1. inventor - Abbas Ibn Firnas - an - was.

.....

2. a photographer - to - He - be - wants

.....

7 Write a paragraph of FIFTY (50) words using the following guiding elements.

"Your father's job"

1 Listen and answer the questions.

1. What does Eman want to be ?

.....

2. What is Eman interested in ?

.....

3. Why is it important to study the plants ?

.....

4. What happens without gravity ?

.....

2 Read and complete the following text with the words from the list.

paper – make – papyrus – strong – medicine

Papyrus is a very special plant. Papyrus is a [1] plant. People used papyrus to [2] things such as baskets and sandals. The most important thing they made from it was [3] The ancient Egyptians made some of the first books in the world using [4]

3 Read the following text and answer the questions.

Hello, my name's Mr Taha and I work at the museum. I know your class is learning about natural resources, so I'm here today to talk about resources in ancient Egypt! Did you know that ancient Egypt was very successful because it had good natural resources? Agriculture was a very important part of the economy of ancient Egypt.

The Nile flooded every year and made the soil fertile. Farmers grew lots of different crops, such as cotton and rice. Do any of you know what flax is? This tall plant has blue flowers. The plant turns yellow after the flowers die. Flax was important in ancient Egypt. People used it to make linen for clothes, as well as for strong rope.

A. Choose the correct answer from a, b, c or d :

1. The main idea of the text is the

- a. museum
- b. natural resources in ancient Egypt
- c. learning at the class
- d. wood

2. The Nile flooded every year and made the soil

- a. dry
- b. poor
- c. weak
- d. fertile

B. Answer the following questions :

3. What is flax ?

.....

4. How do you know that the ancient Egyptians were successful ? Mention two reasons.

.....

4 The reader

A. Read and write T (True) or F (False).

T **F**

1. The acacia tree gives gazelles food and water.

2. The crocodile was very dangerous.

B. Complete the following sentences.

1. eat acacia tree seeds and take them to new places.

2. Subira told Jubari how to stay away from

5 Choose the correct answer from a, b, c or d.

1. She pleased if you came early.

- a. would be
- b. would have been
- c. will be
- d. was

2. If he his homework, his teacher wouldn't be nervous.

- a. would be b. did c. does d. do

3. Hassan said that he going to the beach.

- a. to like b. like c. liked d. likes

4. Did she to the park four days ago ?

- a. go b. goes c. went d. gone

6 Put the words in the correct order to make sentences.

1. favorite - flamingo - My - bird - the - is.

.....

2. you - traveled - Have - ever - to Luxor ?

.....

7 Write a paragraph of FIFTY (50) words using the following guiding elements.

Resources in Ancient Egypt

4. Why do mangrove trees roots grow out of water ?

.....

2 Read and complete the following text with the words from the list.

canyon – waterfall – natural – noise – storm

Africa has some of the most famous natural wonders in the world.

Victoria Falls is one of the [1]..... wonders. This enormous [2]..... is on the Zambezi River, on the border between Zambia and Zimbabwe. Every minute, over 5 million cubic meters of water falls into a big [3]..... which the water has eroded. When the water falls, it makes a lot of [4]..... !

3 Read the following text and answer the questions.

Sherif wanted to be an engineer when he was 10 years old. He always watched TV programs about robots, and he loved making things.

When he was 13, he started helping a robot design company online. He did his school work in the day and in the evening he worked on his robot projects. This experience helped him to start his own company. He said that the science and math lessons at school helped him to learn how to solve problems. He also found English very useful. He is now learning Japanese so he can talk to people in Japan.

A. Choose the correct answer from a, b, c or d :

1. Sherif is a/an person.
a. successful b. lazy c. slow d. unkind
2. The underlined word "start" means
a. end b. begin c. finish d. collect

B. Answer the following questions :

3. How do we know that Sherif is interested in engineering when he was 10 ?

.....

4. What experience helped Sherif to start his own company ?

.....

4 The reader

A. Read and write T (True) or F (False).

1. Jubari saw a Nubian ibex on the mountain.
2. The beach was too salty.

<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>

B. Complete the following sentences.

1. The desert is perfect for gazelles to
2. The beach was too

5 Choose the correct answer from a, b, c or d.

1. The cat has jumped very high, it ?
a. haven't b. didn't c. hasn't d. isn't
2. Yesterday, I was ill I didn't go to work.
a. because b. so c. but d. and
3. Gamila likes swimming, she doesn't like running.
a. but b. because c. and d. so
4. If we used more renewable energy, it better for our planet.
a. will b. would be c. will be d. would

6 Put the words in the correct order to make sentences.

1. has – dinner – her – Noha – made – for – family.

.....

2. place – an amazing – The African – is – continent.

Ali : Are you a builder ?

Ayman : No, I'm a/an [1].....

Ali : What are you [2]..... on now ?

Ayman : I'm trying to find out how to fly like a/an
[3].....

Ali : What are you carrying ?

Ayman : These are my wings. They're made of wood and
[4].....

3 Read the following text and answer the questions.

People kept bees to make honey in ancient Egypt over 4,500 years ago. Honey was an expensive, but it was an important natural resource.

Everyone liked it because you could use it for many different things. People used it to make food taste sweet. They used it as a medicine, too. If you cut yourself, you could put honey on the cut. People made long, round houses out of clay for the bees.

Then they put the clay bee houses, called hives, on top of each other in the shape of a pyramid. Every few months, they moved the hives along the Nile in boats so that the bees could find new flowers.

A. Choose the correct answer from a, b, c or d :

1. The main idea of the text is the importance of
- a. honey b. salt c. paper d. mud
2. The underlined adjective "expensive" is the opposite of the
- a. selfish b. cheap c. precious d. messy

B. Answer the following questions :

3. Why is honey important ? Give two reasons.
.....
4. Why did they move the hives along the Nile in boats ?
.....

3 Read the following text and answer the questions.

Once upon a time, a kind and honest shoemaker lived in town with his wife. They were very poor, but they were happy. The shoemaker worked hard, but he had no money. One night, the shoemaker was in his workshop. The shoemaker cut out the leather and went to bed. The following morning, the shoemaker couldn't believe his eyes. He called his wife to come quickly to the workshop. "Look at these shoes!" said the shoemaker. There, on his table was an amazing pair of shoes. "They are beautiful. Did you make them?" His wife looked surprised. "No, my dear, I didn't make them," he said. The shoemaker and his wife were amazed to see two beautiful pairs of shoes in the workshop. "We must find out who is making these shoes," said the shoemaker's wife. "Let's hide tonight and see who is helping us." They were very surprised to see two little elves! The elves started to make the shoes. "We must thank the elves," said the shoemaker's wife. "Let's make them new clothes."

A. Choose the correct answer from a, b, c or d.

- The shoemaker lived in town with his.....
a. brother b. son c. daughter d. wife
- The underlined phrase "**find out**" means.....
a. help b. make c. read d. know

B. Answer the following questions.

3. What is the moral of the story ?

.....

4. Why did the elves help the shoemaker and his wife ?

.....

4 The reader

A. Read and write T (True) or F (False).

.....

4. What do mangrove leaves take from air ?

.....

2 Read and complete the following dialogue with the words from the list.

resources – non-renewable – ground – salty – nature

Nada : What's a mine, Salma ?

Salma : It's a place where we get raw materials from the [1]....., like gold and coal.

Nada : Are raw materials the same as natural [2]..... ?

Salma : Yes, usually. Natural resources are things we can use from [3]....., like wood and soil.

Nada : Our teacher says that coal is [4]....., is that right ?

Salma : Yes, that's right.

3 Read the following text and answer the questions.

In some ways, humans are similar to plants. Think about our circulatory system. Instead of water, our veins and arteries carry blood around our bodies.

Arteries move blood away from our heart. Veins carry blood to it. The nutrients and oxygen that we need are in our blood. But we don't use carbon dioxide like plants do. Humans need sunlight, too. We can't make our own food, but we get vitamin D from sunlight. This can help protect us from getting sick. Sunlight also makes a lot of people feel happy.

A. Choose the correct answer from a, b, c or d.

1. The main ways to carry blood in and out of the heart are veins and
- a. lungs b. noses c. stomach d. arteries
2. Our blood has and oxygen that we need.
- a. salt b. nutrients c. carbon dioxide d. sugar

B. Answer the following questions.

3. What is the text about ?
.....
4. What will happen if we don't get enough vitamin D ?

5 Choose the correct answer from a, b, c or d.

1. That smells really good. you baked a cake ?
a. Are b. Do c. Have d. Has
2. Have you ever to China ?
a. be b. being c. were d. been
3. I my homework yet.
a. didn't finish b. haven't finished c. finished d. finishes
4. I think it rain tomorrow.
a. will b. had c. is d. must

Listening Texts

Sample Tests on Units

1. Listening Texts of units tests.

Listen and answer the questions :

Sample Test on Unit 1 :

Mangrove trees can grow in salt water. They are important because they protect the marine ecosystem. The leaves of mangrove trees take more carbon dioxide from the air than other trees. Bees can make a lot of honey from the flowers of mangrove trees.

Sample Test on Unit 2 :

Rwanda is a beautiful country in Africa. It has one of man-made wonders of Africa, the Canopy Walk. Visitors to Rwanda can have an amazing rainforest adventure on the Canopy Walk. The bridge was built in 2010 which is the highest part of the trees. The visitors can see monkeys and birds.

Sample Test on Unit 3 :

Water is a liquid. If we freeze water, it turns into ice. Ice is a solid. When ice melts, it becomes a liquid. When we boil water, it turns into steam.

Sample Test on Unit 4 :

Astronauts are interested in stars and planets. They study the planets. There are eight planets in our solar system. Astronauts stay and live in the International Space Station.

2. Listening Texts.

Sample Test ①

I'm Eman. I want to be an astronaut. I'm interested in the stars and the planets. It's important to study other planets because it helps us solve some of the Earth's problems. It looks fun to live without gravity. Without gravity the people float all the time.

Sample Test ②

Nabq is a very big National park in South Sinai. Along the coast here, there're 4.8 Kilometers of mangrove forest which is the largest in the Red Sea. We went there to learn why mangrove forests are so important for the marine ecosystem. Mangrove trees can grow in salt water. Mangrove roots grow out of water to get oxygen.

Sample Test 3

Mazen and his family are healthy. I love sports. My sister plays tennis. My mom walks to work to stay healthy. My dad rides his bike. We always eat healthy food.

Sample Test 4

I'm Reem. I live in Luxor. I told my mom that I wanted to fly like a bird. My mom bought us tickets for the Luxor hot air balloon festival. I watched a hot air balloon pilot as he lit the flames. My family and I saw different kites flying in the sky. Soon, we were flying over the beautiful city of Luxor.

Sample Test 5

My name is Jana. When I grow up, I'd love to be an engineer like my uncle Wael. His job sounds really interesting. Engineers help make things such as skateboards and roads ! Uncle Wael says that you need to understand science to do this job.

Sample Test 6

Mangrove trees help the environment in many ways. They protect the marine ecosystem. Many little fish swim among the roots of the trees, so the roots are very important because bigger fish can't catch them. The leaves of the mangrove trees take four times more carbon dioxide from air than other kinds of trees.

Sample Test 7

In science class today, our teacher put some water in a pan. She heated the water until it boiled. Some of the water turned to steam. Then we poured the water into a container, and put it in a freezer. The water froze and turned to ice.

Sample Test 8

Agriculture was a very important part of the economy of ancient Egypt. The Nile flooded every year and made the soil fertile. Farmers grew a lot of different crops such as cotton and rice.

Sample Test 9

I'm Nader. My cousin Ali who lives in the Sinai Peninsula told me a lot about the area where he lives. He lives close to a mountain which is called Mount Sinai. I have another cousin, Hany who lives near a wadi.

Sample Test 10

An ecosystem is all the animals and plants in an area. The ecosystem can be as small as a pond or as big as a forest. In an ecosystem, living things interact with non-living things. The different species in an ecosystem make a community. These different species need each other to survive.
