The second week

Unit Three: Natural resources on Earth's surface

Concept 1: Biosphere and hydrosphere interactions (Part Two)

Homework

Choose the correct answer:

- 1- Water that flows from an area of high altitude to an area of lower altitude in a definite path is known as
a- ocean b- river c- sea d- lake
- 2- The geosphere contains all of the following except...
a- minerals b- rocks c- oxygen d- soil
- 3- Rivers are considered a part of the
a- biosphere b- hydrosphere c- atmosphere d- geosphere
- 4- When living organisms breathe, an interaction occurs between and
a- biosphere – geosphere . b- atmosphere – hydrosphere.
c- biosphere – atmosphere. d- geosphere - hydrosphere.

Put sign (✓) or (×)

- 1- Groundwater is found above the surface of the earth. ()
- 2- All living organisms belong to the atmosphere. ()
- 3- The glacier is considered part of the geosphere. ()
- 4- Air represents the atmosphere in the Earth's systems. ()
- 5- The oceans contain a large amount of fresh water. ()
- 6- The phenomenon of erosion is an example of the interaction of the geosphere with the hydrosphere. ()
