السيد الاستاذ / محمد عبد اللطيف  
وتوجيهات مساعد الوزير لشئون تطوير المناهج التعليمية  
والمشرف على الادارة المركزية لتطوير المناهج

د/ اكرم حسن  
اداءات وتقييمات  
الصف الخامس الابتدائي  
لجنة الاعداد والمراجعة  
خبراء مكتب تنمية مادة العلوم  
اشراف علمي  
مستشار العلوم  
د/ عزيزه رجب خليفة

**Primary five**

**Science – first term**

**Biosphere and hydrosphere interactions (Part One)**

**Weekly test (1) – (A)**

**Complete the following**

- Water turns from a liquid to a solid by.....

**Correct the underlined:**

- 1- Plants need water to do the process of reproduction.
- 2- Water covers about 50% of the Earth's surface.

**Give reasons for the following**

- The importance of water for the life of living organisms.

**What happens if...?**

- Water changes from one state to another in relation to its total quantity.

**Primary five**

**Science – first term**

**Biosphere and hydrosphere interactions (Part One)**

**Weekly test (1) – (B)**

**Complete the following**

- An ecosystem consists of ..... and non-living things.

**Correct the underlined:**

- 1- Water turns into ice by heating.
- 2- The total amount of water on Earth changes.

**Give reasons for the following**

- The importance of water for the life of living organisms.

**What happens if ....?**

- Water disappeared from the surface of the Earth.

**Primary five**

**Science – first term**

**Biosphere and hydrosphere interactions (Part One)**

**Weekly test (1) – (C)**

**Complete the following:**

- Water turns from a solid to a liquid by.....

**Correct the underlined:**

- 1- Rivers represent the atmosphere of the Earth.
- 2- Water turns from solid to liquid by cooling.

**Give reasons for the following:**

- The importance of water for the life of living organisms.

**What happens if ..... ?**

Water changes from one state to another in relation to its total quantity.
